

Call for Papers

Economic Change and Restructuring

special issue on *Economic Growth and Sustainable Development*

Deadline for manuscript submission: January 5, 2017

Dear colleagues,

On behalf of the organizers of the *INFER Workshop on Economic Growth and Sustainable Development* (Harokopio University of Athens, 9-10 September 2016), we would like to inform you that we organize a special issue in the journal **Economic Change and Restructuring** (Springer).

The topic of this special issue is **Economic Growth and Sustainable Development**. The guest editors are Ioannis Kostakis (Harokopio University, Greece) and Camélia Turcu (University of Orléans- LEO CNRS, France).

For this special issue, we will consider excellent papers that were previously accepted for presentation at the INFER Workshop "Economic Growth and Sustainable Development" (Athens, 2016). Moreover, we are willing to consider also high quality papers accepted for presentation at other INFER Workshops and Conferences, if they fit the topic of this special issue.

Further instructions pertaining to all submissions:

- a) The **extended submission deadline is January 5, 2017**. Editors are committed to a speedy refereeing process. Submissions should be sent to iekostakis@gmail.com and camelia.turcu@univ-orleans.fr. Please also send to the guest editors of this special issue a signed declaration that your paper is not under consideration elsewhere.
- b) Comments received at the INFER workshops and conferences should be incorporated in the submitted papers and acknowledged.
- c) Submissions should be less than 20 double-spaced pages. We strongly encourage the authors to keep their submissions to 15 pages.
- d) Please visit the following link for instructions about your submission:
 - **Economic Change and Restructuring, Springer Publications**
 - <http://www.springer.com/economics/development/journal/10644>
- e) Papers that fail to follow the above instructions will not be considered. Authors are responsible for evaluating the relative risk of rejection and for selecting the journal appropriate for their paper.
- f) All submitted papers will pass through a blind double-referee process, as long as their theme corresponds to the scope of the journal/special issue and the manuscript complies with the journal's guidelines.

We look forward to receiving your papers.

Dr. Ioannis Kostakis
Chair of the LOC - INFER Workshop - Athens, 2016

Prof. Dr. Camélia Turcu
Chair of INFER
